

FMCG-RADAR

Retail Market Intelligence & Territory Expansion Report

Gujarat, India · 2025

FMCG-RADAR: Expansion Strategy Matrix — Gujarat 2025

This report presents a data-driven territory intelligence framework for FMCG brands evaluating market expansion across Gujarat's 33 districts. Each district is scored on Market Opportunity, Demand Forecast, and Expansion Risk — producing a priority-ranked expansion roadmap for Q1–Q4 2025.

1. Methodology

FMCG-RADAR applies a three-pillar scoring framework to evaluate every district in Gujarat for FMCG market expansion potential:

Pillar 1 — Market Opportunity Score	Composite index combining Population Density (25%), Urbanization Rate (25%), Literacy Rate (20%), Market Maturity / Non-Agricultural Income Share (20%), and Population Size (10%). Scores scaled 0–100 using Min-Max normalization.
Pillar 2 — Demand Forecast (2025 Q1–Q4)	State-level FMCG demand index modelled from Gujarat FMCG sector growth rates (2019–2024, source: IBEF). District-level forecasts derived using district-specific growth modifiers based on urbanization momentum and population CAGR. Projected using compound quarterly growth formula.
Pillar 3 — Expansion Risk Score	Risk index combining Market Saturation Risk (40%), Infrastructure / Distribution Risk (35%), and Market Accessibility Risk (25%). Higher score = higher entry barrier.

Data Sources

- District boundaries: OpenStreetMap (OSM) via OSMnx — fetched live 2025
- Population base: Census of India 2011 (Office of the Registrar General)
- Population projection: CAGR methodology using Census 2001–2011 growth rates
- FMCG growth rates: IBEF Gujarat Sector Report + RBI State Finance Data
- Urbanization & literacy: Census of India 2011

Limitations & Future Improvements

Population projections assume continuation of 2001–2011 CAGR trends. For production deployment, this model would incorporate Census 2021 district data (pending public release), PLFS annual consumption surveys, satellite nightlight intensity as a real-time consumption proxy, and telecom mobility data for actual population movement patterns.

2. Market Opportunity Analysis

FMCG Market Opportunity Score — Gujarat (2024) FMCG-RADAR Intelligence Report

Score based on Population Density, Urbanization Rate, Literacy Rate, Market Maturity & Population Size | Source: Census of India 2011, Projected to 2024

Top 10 Districts by Market Opportunity Score

District	Opp. Score	Rank	Pop. 2024 (proj.)	Urban Rate	Literacy
Gandhinagar	91.5	#1	2,075,008	92%	89.1%
Surat	87.7	#2	9,728,208	87%	85.3%
Ahmedabad	79.1	#3	9,907,116	85%	86.8%
Vadodara	62.9	#4	5,350,903	72%	84.1%
Rajkot	57.5	#5	5,054,966	68%	82.3%
Anand	53.2	#6	2,595,766	58%	82.1%
Mehsana	46.2	#7	2,404,622	54%	79.8%
Valsad	45.8	#8	2,197,490	51%	80.1%
Navsari	44.5	#9	1,772,463	49%	80.3%
Bhavnagar	42.7	#10	3,456,939	52%	77.4%

3. Demand Forecast — 2025 Q1 to Q4

FMCG-RADAR: Demand Intelligence Report — Gujarat 2025

Quarterly demand forecast for top 15 districts (2025 Q1–Q4). Growth rates range from 14.0% (Gandhinagar) to 6.56% (Dang), reflecting urbanization momentum and population growth differentials.

District	Base (2024)	Q1	Q2	Q3	Q4	Growth %
Gandhinagar	130.0	134.3	138.8	143.4	148.2	+14.0%
Surat	124.5	128.6	132.8	137.2	141.8	+13.9%
Ahmedabad	112.4	115.8	119.5	123.2	127.0	+13.0%
Vadodara	89.3	91.8	94.3	96.9	99.6	+11.6%
Rajkot	81.7	83.9	86.2	88.6	91.0	+11.4%
Anand	75.6	77.4	79.3	81.3	83.3	+10.3%
Mehsana	65.6	67.2	68.7	70.3	72.0	+9.7%
Valsad	65.0	66.6	68.2	69.8	71.4	+9.8%
Navsari	63.2	64.7	66.2	67.8	69.4	+9.8%
Bhavnagar	60.7	62.1	63.5	65.0	66.5	+9.6%
Jamnagar	58.6	60.0	61.5	63.0	64.5	+10.1%
Kheda	59.0	60.3	61.6	62.9	64.2	+8.8%
Vadodara Rural	58.6	60.0	61.3	62.7	64.1	+9.3%
Porbandar	57.0	58.3	59.7	61.2	62.6	+10.0%
Junagadh	55.3	56.5	57.8	59.1	60.4	+9.3%

4. Expansion Priority Matrix

FMCG-RADAR: Expansion Strategy Matrix — Gujarat 2025

Complete District Rankings — All 33 Districts

Rank	District	Opp.	Risk	Priority	Growth %	Zone
#1	Gandhinagar	91.5	40.0	67.5	+14.0%	PRIORITY EXPAND
#2	Surat	87.7	43.9	61.3	+13.9%	PRIORITY EXPAND
#3	Ahmedabad	79.1	39.7	55.3	+13.0%	PRIORITY EXPAND
#4	Vadodara	62.9	40.8	38.4	+11.6%	PRIORITY EXPAND
#5	Rajkot	57.5	41.9	32.4	+11.4%	PRIORITY EXPAND
#6	Anand	53.2	44.6	26.4	+10.3%	PRIORITY EXPAND
#7	Mehsana	46.2	45.4	19.0	+9.7%	PRIORITY EXPAND
#8	Valsad	45.8	46.3	18.0	+9.8%	PRIORITY EXPAND
#9	Navsari	44.5	46.4	16.6	+9.8%	MONITOR
#10	Jamnagar	41.2	44.4	14.6	+10.1%	MONITOR
#11	Bhavnagar	42.7	46.9	14.6	+9.6%	MONITOR
#12	Porbandar	40.1	43.2	14.2	+10.0%	MONITOR
#13	Kheda	41.6	48.5	12.5	+8.8%	STRATEGIC ENTRY
#14	Vadodara Rural	41.3	48.2	12.4	+9.3%	STRATEGIC ENTRY
#15	Junagadh	38.9	48.1	10.1	+9.3%	STRATEGIC ENTRY
#16	Bharuch	35.9	46.7	7.9	+9.4%	MONITOR
#17	Morbi	34.0	48.2	5.1	+9.1%	AVOID
#18	Devbhumi Dwarka	32.3	47.9	3.6	+8.8%	AVOID
#19	Amreli	30.2	48.8	0.9	+8.4%	AVOID

#20	Botad	29.0	49.8	-0.9	+8.5%	AVOID
#21	Gir Somnath	28.6	50.2	-1.5	+8.3%	AVOID
#22	Panchmahals	29.7	52.4	-1.7	+8.7%	AVOID
#23	Sabarkantha	28.8	52.2	-2.5	+8.2%	AVOID
#24	Kutch	25.5	52.1	-5.8	+8.4%	AVOID
#25	Patan	23.6	52.5	-7.9	+8.2%	AVOID
#26	Aravalli	21.3	53.8	-11.0	+7.6%	AVOID
#27	Banaskantha	19.5	56.5	-14.4	+7.7%	AVOID
#28	Narmada	17.7	54.2	-14.8	+7.9%	AVOID
#29	Mahisagar	18.1	55.3	-15.1	+7.5%	AVOID
#30	Dahod	15.8	59.9	-20.1	+7.7%	AVOID
#31	Tapi	13.9	56.7	-20.1	+7.5%	AVOID
#32	Chhota Udaipur	13.2	57.5	-21.3	+7.3%	AVOID
#33	Dang	0.9	60.0	-35.1	+6.6%	AVOID

5. White Space Detection

While the Opportunity Score identifies districts with strong market fundamentals, high-opportunity districts are often already saturated with competing FMCG brands. White Space Detection identifies districts with large, accessible markets and comparatively low existing competition — true expansion opportunities for brands seeking first-mover advantage.

FMCG-RADAR: White Space Detection — Gujarat 2025

Top Untapped Goldmine Districts

District	White Space Score	Opp. Score	Urban Rate	Zone
Dahod	10000.0	15.8	24%	UNTAPPED GOLDMINE
Chhota Udaipur	9432.0	13.2	22%	UNTAPPED GOLDMINE
Mahisagar	9183.0	18.1	26%	UNTAPPED GOLDMINE
Banaskantha	8948.0	19.5	28%	UNTAPPED GOLDMINE
Tapi	8902.0	13.9	24%	UNTAPPED GOLDMINE
Narmada	8559.0	17.7	28%	UNTAPPED GOLDMINE
Aravalli	8366.0	21.3	28%	UNTAPPED GOLDMINE
Panchmahals	7994.0	29.7	38%	UNTAPPED GOLDMINE
Patan	7833.0	23.6	36%	UNTAPPED GOLDMINE
Gir Somnath	7615.0	28.6	36%	UNTAPPED GOLDMINE

Strategic Insight: Districts like Banaskantha and Dahod show low Opportunity Scores due to lower current urbanization, but their large population base and minimal existing FMCG competition make them attractive first-mover targets — particularly for categories with low brand-switching costs (e.g. personal care, packaged staples).

5. Strategic Recommendations

PRIORITY EXPAND — Immediate Action

Districts: Ahmedabad · Surat · Vadodara · Rajkot · Gandhinagar · Anand · Mehsana · Valsad

These districts offer the highest combination of market opportunity and manageable entry risk. FMCG brands should prioritize distribution expansion, retail partnerships, and marketing investment in these markets in Q1–Q2 2025. Strong urban consumer base and high literacy rates indicate receptive markets for branded FMCG products.

STRATEGIC ENTRY — Planned Approach

Districts: Junagadh · Kheda · Vadodara Rural

Moderate opportunity with higher entry barriers. Recommended approach: pilot with selective SKUs, partner with established local distributors, and build brand awareness before full-scale expansion. Entry in Q3–Q4 2025 after Priority markets are secured.

MONITOR — Watch & Wait

Districts: Bhavnagar · Jamnagar · Bharuch · Navsari · Porbandar

Lower current opportunity but manageable risk. These markets may become viable as urbanization increases. Recommend quarterly monitoring of retail development and population growth indicators.

AVOID — Do Not Prioritize

Districts: Kutch · Patan · Banaskantha · Sabarkantha · Aravalli · Mahisagar · Chhota Udaipur · Dahod · Narmada · Tapi · Dang · Amreli · Gir Somnath · Botad · Devbhumi Dwarka · Morbi · Panchmahals

High risk combined with low opportunity makes these markets unfavorable for near-term FMCG expansion. Characterized by low urbanization, agricultural dependence, and infrastructure gaps. Revisit in 2026–2027 planning cycle.
